

PACKAGE #39

Northern Luzon Video Ministry

Goal - \$10,000

Project VIDEO (PV) *Proclaims the Gospel through Video* in Asia with over 17 production studios that target 30+ language groups in six countries.

In 2013 Project VIDEO partnered with the Association of Ifugao Bible Churches (AIBC) to develop the Northern Luzon Video Ministry (NLVM) studio in Ifugao province, Philippines. Since 2013, the Sanafe studio has dubbed *The Gospel of John*, *The Book of Acts*, and the *God Provides series* into the Ayangan language. In March 2017, they completed their first original film in Ayangan the *Parable of the Unforgiving Servant*. They are now in need of equipment to make more original Christian films that they can use to share the word of God throughout the region.

Field Director Anita Laya will manage and allocate Package #39 funds to be used for:

- A video editing laptop, editing software and an external hard drive,
- Sony camera with tripod, SD card and case
- Lighting kit, boom mike, headphones, cables and case.

Daniel Ardo David

The NLVM Media team consists of David, our studio manager and Daniel, our producer. Pastor Ardo, a member of the AIBC Board, also works with the team and ensures the scripts are Biblically sound. This team is dedicated to spreading the gospel through video throughout the Northern Luzon region.

SERVICE VOLUNTEER (SV) TRIP: Congregations that sponsor this package will be asked to send a SV in either June 2017 or between January and March 2018 to the Philippines to deliver the equipment and visit the studio with a PV representative. This is a great way to build mission awareness in a congregation since every SV returns with dozens of trip photos and a report video made especially for them by the PV Asian Field Coordination Staff.

FIELD DIRECTOR

Field Director Anita Laya was one of the first Ayangan Christians. She has worked on translating the Bible into the Ayangan language and, along with the AIBC board, she will oversee the spiritual content of the films and review the scripts to ensure they are biblically sound and accurate.

As Field Director, Anita is responsible for developing a strategy with the AIBC leadership for sustaining the NLVM studio and its media staff on a long term basis.
