

PACKAGE #40

Akha Studio Equipment

Goal - \$10,000

Project VIDEO (PV) *Proclaims the Gospel through Video* in Asia with over 17 production studios that target 30+ language groups in six countries.

In 2011 Project VIDEO partnered with the Akha Outreach Foundation to develop Akha Outreach Media (AOM), a gospel media team. AOM's goal is to equip the 2.5 million Akha living in 5 different nations with gospel videos in their heart

language. They have produced over 80 media pieces which include personal testimonies, short Biblical documentaries, music videos, and more to encourage new believers. These videos can be viewed at Akha Christian Media (YouTube) or at the "SarDawq KhawqNymr" page (in Akha - on YouTube and Facebook). The AOM is now

ready to increase their media and production skills and new cameras and studio equipment are needed to help them take this next step.

Field Director Dr. Aje will manage and allocate Package #40 funds, which will be used to obtain the following equipment:

- A new video editing laptop, editing software and an external hard drive
- Cannon camera with tripod, SD card and case
- Lighting kit, microphones, headphones, cables and case

Pictured above, the AOM team consists of studio manager Paul, team manager Risa, assistant field director/producer Nini, and video, audio and IT technicians Somkiet and Sanchat, respectively.

SERVICE VOLUNTEER (SV) TRIP: Congregations that sponsor this package are asked to send a SV (either fall 2017 or Jan.-Mar. 2018) to Thailand to deliver the equipment and visit the studio. This builds mission awareness in a congregation since every SV returns with dozens of trip photos and a report video made especially for them by the PV Asian Field Coordination Staff.

PROJECT VIDEO

FIELD DIRECTOR

Field Director Dr. Aje Kukaewkasem and his wife, Nancy, are the founders of the Akha Outreach Foundation in Chiang Rai, Thailand. Aje was the first Akha to receive a college degree and earn a PhD.

Akha Outreach Media (AOM) has found that their online video testimonies have a huge impact and wide viewership. They have also created bible commentary with Dr. Aje narrating from Rome and Israel the journeys of Jesus and Paul, respectively. When one Akha viewer saw Dr. Aje standing in the same places Jesus had walked, he exclaimed "So the Bible is true!"
