

PACKAGE #30

Video Production Competition

Goal - \$2,500

Project VIDEO (PV) *Proclaims the Gospel through Video* in Asia with over 17 production studios that target 30+ language groups in six countries.

Ethnic producers who serve PV studios are evangelists eager to train and mobilize local believers in making Christian videos for their people group. Every production can take months to produce and includes script writing / translating – recruiting narrators / actors - recording / shooting - and mastering the DVD.

To inspire our partners to broaden their skills, we will award prizes to help cover future production costs. Categories will include:

- Original Feature Films (40+ min.)
- Short Feature Films (15+ min.)
- Dubbing Productions
- Testimonies/Documentaries
- Preaching Videos
- Christian Music Videos

Studios submit productions to PV in various categories to be judged on quality and content. Winning productions will be shared with sponsors and other studios. Portions of the money will be used to train studios in new media skills. We hope to encourage and train studios to move past basic skills and find productions that work best to evangelize to their people group.

Production costs are low because local believers volunteer their talent. The average production cost is **\$2,500** and with this PV provides training for the producers to increase their skills with each package.

When local congregations or individuals sponsor a PKG #30 production, they become directly involved in proclaiming the gospel through video among a specific ethnic group in Asia.

Here's how it works.

1. You (the sponsor) mail this sheet with your check payable to Project VIDEO Inc. and PV will send you a tax deductible receipt.
2. Once the productions are picked, PV will send you (the sponsor):
 - A short show reel of new productions.
 - Photos and testimonies from some of our ethnic producers.
 - Description of how the production will be distributed and used.

TRIP OPTION: Sponsors of at least two PKG #30 productions also have the option of recruiting 1-2 service volunteers to go on a short-term trip to Asia. This is a great way to build mission awareness in a congregation since every service volunteer returns with dozens of trip photos and a report video made especially for them by the PV Asian Field Coordination staff.

PROJECT VIDEO

GOD'S TWO CARABAO

Studios are developed using the "God's Two Carabao" (water buffalo) strategy where...

MISSION CARABAO - U.S. individuals and churches who sponsor packages to DEVELOP studios in Asia.

MINISTRY CARABAO - our Asian partners who SUSTAIN the studio and local producers who operate them.

The MISSION and MINISTRY CARABAO plow together to reach people in SE Asia through gospel videos.

Mail this sheet along with your check payable to:
