

PACKAGE #41

Asian Field Coordination Staff Fund

Goal – \$5,000 to \$10,000

Project VIDEO (PV) *Proclaims the Gospel through Video* in Asia with 20 production studios that target 30+ language groups in seven countries. To accomplish our goal, the PV model is to recruit ethnic field directors and producers to run each studio. Similarly, our hope is to recruit ethnic people to staff our Asian headquarters in Chiang Mai, Thailand and many positions are waiting to be filled.

Ethnic staff who serve PV are invaluable in helping spread the gospel in SE Asia. Working alongside our Asian Field Coordinator Jasmine, they are the heart, the hands, and the feet of our ministry in Asia. Their work helps sustain our studios and equip our ethnic field directors and producers to be successful in their work.

Edward training a partner

Field Coordination staff duties may include:

- Travel to our studios to train producers in audio and video techniques to increase their skill level
- Lead training seminars
- Edit films at studios and in Chiang Mai
- Participate in Service Volunteer visits to our partner studios
- Develop new partnerships through their contacts and work

Unfortunately not all of our ethnic staff are fully supported to do this work. Your PKG #41 gift will help supplement their expenses so they can continue to focus on the training that is so vital to PV's success in Asia, and for some of them it can relieve a burden that interferes with their fulltime commitment to PV.

When the Mission Carabao (the local congregations or individuals) sponsors PKG #41, they are directly yoked to the Ministry Carabao (the Asian Field Coordination staff) to *"Proclaim the Gospel through Video"* by equipping our ethnic staff with the needed resources to achieve this goal.

TRIP OPTION: Sponsors of PKG #41 also have the option of recruiting 1-2 service volunteers to go on a short-term trip to Asia. This is a great way to build mission awareness in a congregation since every service volunteer returns with dozens of trip photos and a report video made especially for them by the PV Asian Field Coordination staff.
